

THE GRASS IS GREENER

## Making healthcare coverage personal

With a complete suite of innovative and integrated services, Verdegard makes healthcare coverage affordable and personal for self-funded plans and their members.

### **Integrated, innovative, affordable.**

Verdegard's comprehensive, end-to-end suite of TPA services simplify contracting and administration for employers.

### **Choice and flexibility.**

Every employer's needs are different. To help them find a plan that is right for them, we offer a variety of plan designs and additional services, from dental coverage to home delivery.

### **Advocates on your side.**

Advanta advocates assist members throughout every step of their medical care with the goal of eliminating out-of-pocket costs altogether.

## Comprehensive plan options.

We offer a full spectrum of plan designs, including PPO options, value-based, level-funded, and hybrid plans. Our plans come with unique transparency, patient advocacy, and cost management options to maximize the benefits and savings to employers and members.

### Navigator Plans

Navigator plans offer both PPO and value-based (VBP) options. Employees have access to Advanta for help finding care, often with a zero-dollar copay.

### Essential Plans

Essential plans are affordable while avoiding potential tax penalties for both the employer and their employees.

### Dental and Vision Plans

Dental and vision plans include coverage for preventative care, eyeglasses, and contact lenses with low annual deductibles.

## An integrated approach

From dental coverage to home delivery, we provide a variety of services, giving employers a single source for their benefits program.
